ABOUT LYNNE

Lynne is a Registered Nurse working as a Case Manager. Lynne completed her nursing qualification in 2009 at Keele University, achieving a first in her bachelor's degree.

Lynne has over 10 years' experience working in the NHS in a variety of settings, which includes Critical Care, Multiple Injuries, Rehabilitation, and Neuro Surgery. Lynne also worked as a Complex Care Case Manager and a Commissioning Nurse in NHS Continuing Healthcare for a number of years before leaving the NHS in 2019 to work as a Case Manager.

Lynne is accustomed to working with a multi-disciplinary team of professionals across the public and private sectors. Lynne has experience of working with both adults and young adults who have experienced catastrophic injuries, including traumatic brain injury, acquired brain injury, spinal cord injury and amputation. Lynne has experience of supporting clients through the civil and criminal litigation processes, working on a mixture of both settled and unsettled cases.

In addition to her professional credentials, Lynne has personal experience of the long-term impact and life changing nature of traumatic brain injury. An immediate family member sustained such an injury almost 30 years ago and Lynne has continually assisted with providing him with the highest quality of life possible.

CLINICAL SKILLS AND EXPERIENCE

- Implementation and coordination of MDT to deliver extensive rehabilitation programmes to clients.
- Assessment and identification of the significant support needs of clients.
- Recruitment and induction of specialist support workers and rehabilitation assistants to support clients with ongoing rehabilitation and support needs.
- Implementation of bespoke support plans and risk assessments.
- Excellent working knowledge of Deprivation of Liberties Safeguards and best interest decision making and safeguarding investigation.
- Passionate advocate for autonomy, and person-centred rehabilitation and care.
- Works closely with client's families to ensure the needs are comprehensively addressed and a client centred outcome is achieved.
- Auditing of complex medication regimes and associated care worker training.
- Excellent assessment and reporting skills, including INA and update reports.
- Management of large/complex support worker teams and the associated human resources/employment related issues.
